# HOW TO DRINK WHISKEY LIKE A SIR

## POUR LIGHTLY

Don't fill your glass- you want an ounce  
or two at most.

## SWIRL THE WHISKEY

So it coats the glass, then breathe deeply with your nose  
about an inch from the liquid. Open your mouth as you  
inhale to let the alcohol fumes escape so you can better  
discern other flavor notes.

## ADD A SPLASH OF WATER TO YOUR GLASS

Seriously. Even a few drops will help reduce that familiar  
burn you get from the alcohol in the whiskey, enabling you  
to pick up the other subtle flavors present.

## "CHEW" YOUR DRINK

Roll the liquid around in your mouth, exposing  
it to your entire tongue so you can pick up each  
unique flavor.

## BREATHE THROUGH YOUR NOSE

As you swallow so that the fumes rise up into your  
sinuses- the best way to appreciate the spirit's finish.
